

**Grant County Health Department
H1N1 Flu Vaccine Information
(Updated 10/28/09)**

H1N1 Flu Mist is available at this time for:

Healthy persons in the following target groups including:

- Children age 2 through 4 years of age
- Persons age 2 through 49 years who live with or provide care for children aged less than 6 months (e.g. parents, siblings and daycare providers)
- Healthcare and emergency medical services personnel age 2 through 49 years who have direct contact with patients or infectious material

H1N1 Injectable Vaccine is not available at this time.

Current Target Group for H1N1:

- Pregnant women
- Persons who live with or provide care for children aged less than 6 months (e.g. parents, siblings and daycare providers)
- Healthcare and emergency medical services personnel who have direct contact with patients or infectious material
- Children aged 6 months through 4 years, and
- Children and adolescents aged 5-18 years who have chronic medical conditions that place them at higher risk of influenza-related complications. These conditions include chronic pulmonary (including asthma), cardiovascular (except hypertension), renal, hepatic, cognitive, neurologic/neuromuscular, hematological or metabolic disorders (including diabetes mellitus), immunosuppression (including immunosuppression caused by medications or by human immunodeficiency virus); or receiving long-term aspirin therapy.

See county website (www.co.grant.wi.gov) to see Vaccine Information Sheet (VIS) or call for further information.
